INDUSTRY INSTITUTE INTERACTION CELL

To understand industrial requirements and students approach about industry use initiative to form the Industry-Institution Interaction Cell in the year 2019 which acts as bridge between academia and industry. It provides an excellent platform for both the students as well as the faculty members to be aware of industry expectations from the graduates. Industry-Institution Interaction Cell acts as a podium to showcase the best practices, latest technologies in industry stand point and their implementation.

Also, Industry-Institution Interaction Cell promotes industry experts to continuously partake in curriculum design and career development programs which play a significant role in improving skill set of the students required for industry. It also helps faculty members to enhance the Teaching Learning Process and enable the Institution to produce quality students in time.

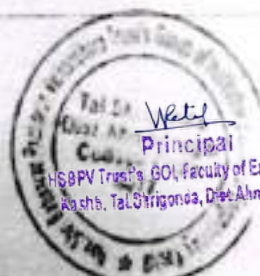

OBJECTIVES:

- To establish convergence with industrial and research organizations from various fields through MOUs as a form of interaction.
- To promote various research activities by the faculty members and students.
- To Establish Centre of Excellence by Industry Corporate to Provide Real Time exposure on Technologies.

CONSTITUTION OF THE CELL

The Cell has been constituted in July 2019 incorporating faculty-in-Charge and one faculty member from each department. The composition of the cell is as under:

NAME	DESIGNATION DEPARTMENT	ROLE
Dr. Vijay S. Patil	Principal	Coordinator
Mr. Gunaware S. G.	TPD	Asst. Coordinator
Mr. Mahadik S. N.	HOD Civil Engineering	Member
Mr. Dhagate M. D.	HOD Mechanical Engineering	Member

Our Institute has provided funds for final year innovative Project and the Project is installed in our college gate. Final year Civil engineering students and final year Mechanical engineering students made Project "Power Generation by Using Speed Breakers" and installed at college campus gate in academic year 2021-22.

Senior faculty Dr.Mahadik S.N. and Prof.Dhagate M.D guided them for Their project work.

Objective of Implementing Virtual Labs -

- To provide remote-access to Labs in various disciplines of Science and Engineering. These Virtual Labs would cater to students at the UG level, PG level as well as to research scholars
- To enthuse students to conduct experiments by learning basic and advanced concepts through remote experimentation.
- To provide a complete Learning Management System around the Virtual Labs where the students can avail the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self-evaluation.
- To share costly equipment and resources, which are otherwise available to limited number of users due to constraints on time and geographical distances.

"Virtual Labs: Hands-on Outreach Workshop" Feedback Form

Objective of implementing Virtual Labs -

- To provide remote access to Labs in various disciplines of Science and Engineering. These Virtual Labs would cater to students at the UG level, PG level as well as to research scholars - To entice students to conduct experiments by learning basic and advanced concepts through simple experimentation.
- To provide a complete Learning Management System around the Virtual Labs where the students can avail the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self-evaluation.
- To share costly equipment and resources, which are otherwise available to limited number of users due to constraints on time and geographical distances.

Coordinators

- Mr. Rahul D. Raskar, Computer Engineering
- Mr. Vaibhav A. Vyavare, ESTC Engineering
